Infovac*

Infovac France

- Created in 2003
- Following Infovac Suisse (Claire Anne Siegrist)

OBJECTIVE:

- **TO ANSWER TO DAILY QUESTIONS / QUERIES OF DOCTORS ABOUT VACCINES / VACCINATION**
- **TO EDUCATE, INFORM**
- **TO COMMUNICATE REFERENCES & HELPFUL SITES**

TO WHOM

Initially: pediatricians, general practitioners

Now: ALL health professionals (pharmacists, nurses included)

In theory: not open to the public

Infovac France

Three major components

Internet site

www.infovac.fr

- Availability of vaccines
- Basic informations on vaccine-preventable diseases & corresponding vaccines
- News: « COVID abécédaire »

Q&R

10 to 20 leaflets / Year

- **Actuality**
- **Information/formation**

Infovac France

- **A national platform of expertise in vaccinology**
 - Independent (though financed by companies in a common fund)
 - Consulted on a regular basis by French official agencies, pharmaceutical companies, vaccination centers, pharmacovigilance centers.
 - Delivering advices / personal opinion (never recommendations) and scientific documents
- **Working in parallel with national sites:** from santé publique France (vaccination-info-service.fr) and mesvaccins.net
 - Reporting official recommendations, vaccines' SPC

Infovac France

Questions & Responses

Methods:

- Who: A dozen of pediatricians selected for their knowledge in the field, their motivation; one coordinator
- When: all the year around (52 weeks); duties by week or half week
- How:
 - Q are centralized by Infovac.questions.fr,
 - delivered by mail to the expert on duty each day (Monday-Friday);
 - the response is sent to the HP sending the Q and ALL Infovac Members who can comment, discuss, complete...or argue

Principles:

- The response is given within 24-48h, preferably during the day of receipt
- Health authorities are respected;
- on a case by case basis, Infovac members may support a non official position (validation is then required)
- If useful: scientific documents / reference sites are linked
- Practical solution(s) for the case

Infovac France

- Annual meeting* during two days between the members
 - Feed back on activity
 - Discussion on consensus required about certain aspects
 - Discussion on uncertainties or grey zones
 - Share of information
 - Novelties in the field....
 - Good for friendly atmosphere! And cohesion of the group

*Suspended in 2020

In 2021 : Mails & Questions received by month (Q=1,5xM)

2003 - 2021 : Mails & Questions received (Q=1,5xM)

Infovac France

Which type of questions?

- Individual catch-up (delayed schedules, missing doses)
- Migrants schedules / catch-up
- Travelers
- Underlying diseases and vaccination
- Undesirable events post vaccination
- Opponent parents to vaccines
-
- Since January 2020, Lots of Q on Covid / tests / vaccines / vaccination schedules

2020-2021 : ABCDaire Covid-19

Two other major topics on the site

Conclusion

- **Public pediatrics initiative since 2003**
 - Destined to answer practical daily queries / questions of HPs
 - At the same time responding to a strong need to reinforce HPs' knowledge, information
- **More and more active site and numerous Q&R** (becoming straining some weeks!)
 - « Experts » participate to Infovac since the early start (and aging....)
 - A need to coopt fresh new members
- **Complementary to (and not opposed to !) official sites**
 - Vaccination.infoservice.fr
 - Mesvaccins.net
