

IMPLEMENTATION OF CxCa PREVENTION E-LEARNING COURSE IN GREECE

KIMON CHATZISTAMATIOU, MD, PhD

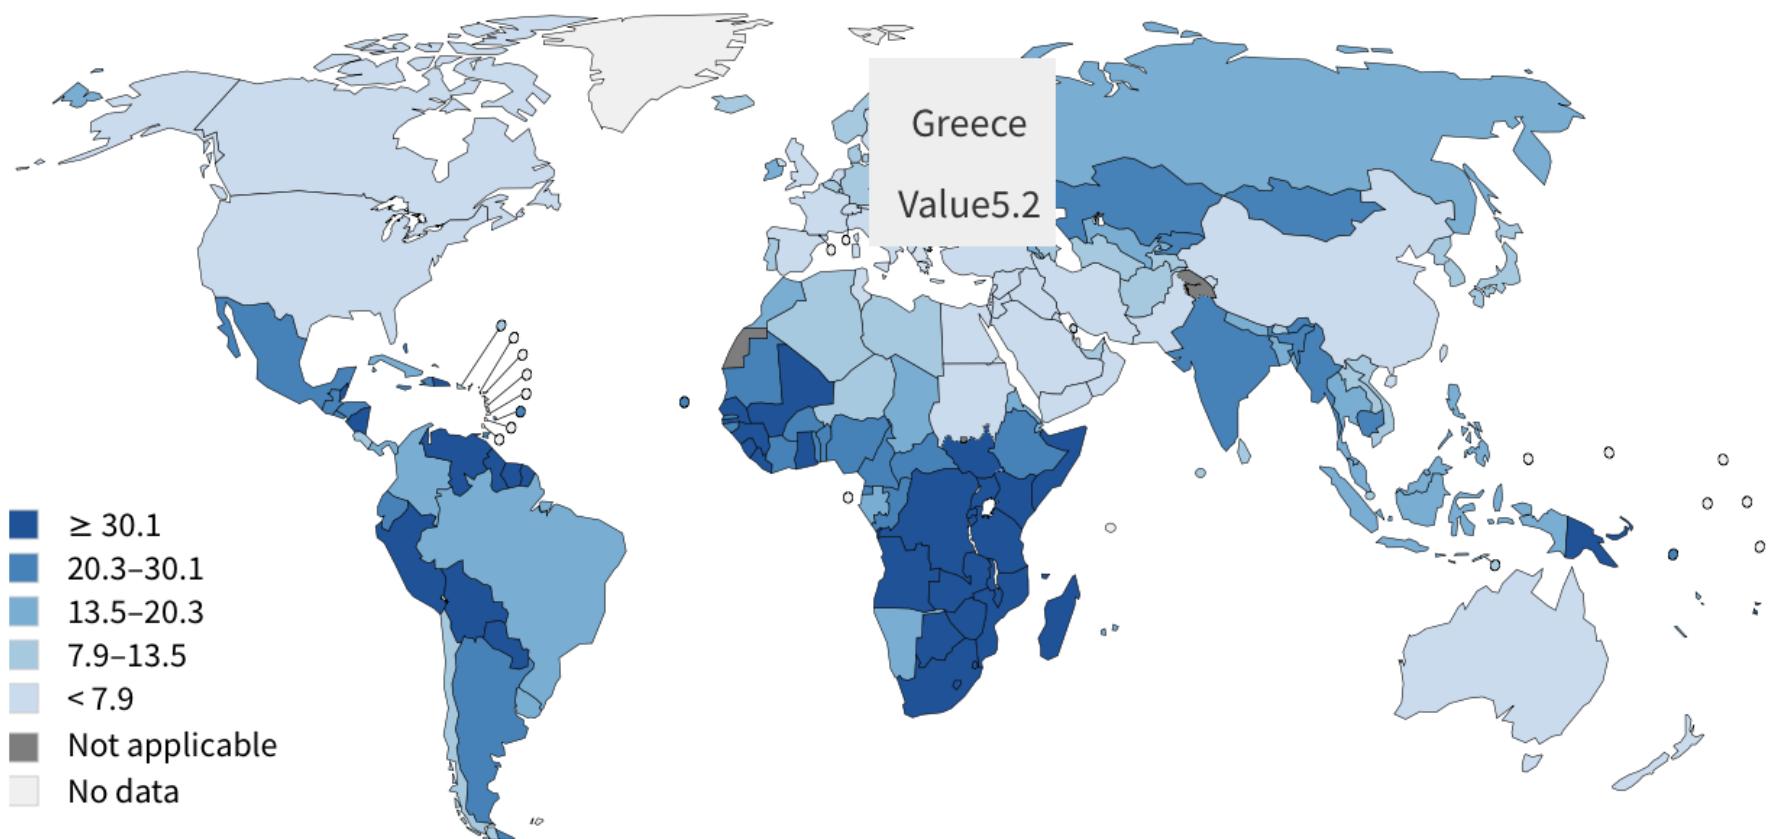

Obstetrician - Gynecologist

Research and clinical fellow

Aristotle University of Thessaloniki, Greece

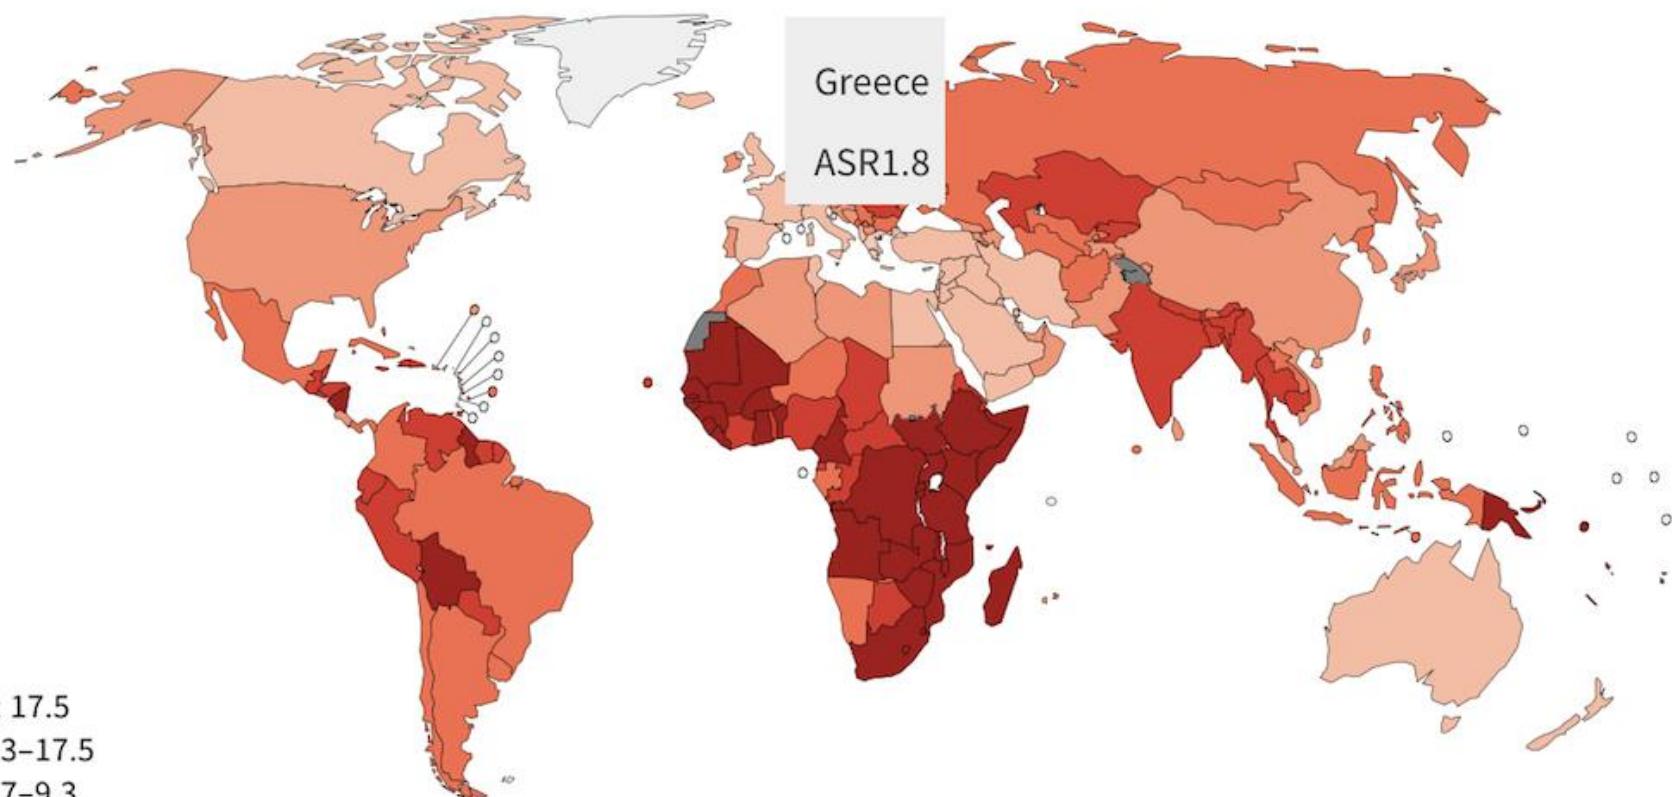

GLOBOCAN 2012

Age-standardized cervical cancer incidence rates

GLOBOCAN 2012

Age-standardized cervical cancer mortality rates

- ≥ 17.5
- 9.3–17.5
- 5.7–9.3
- 2.4–5.7
- < 2.4
- Not applicable
- No data

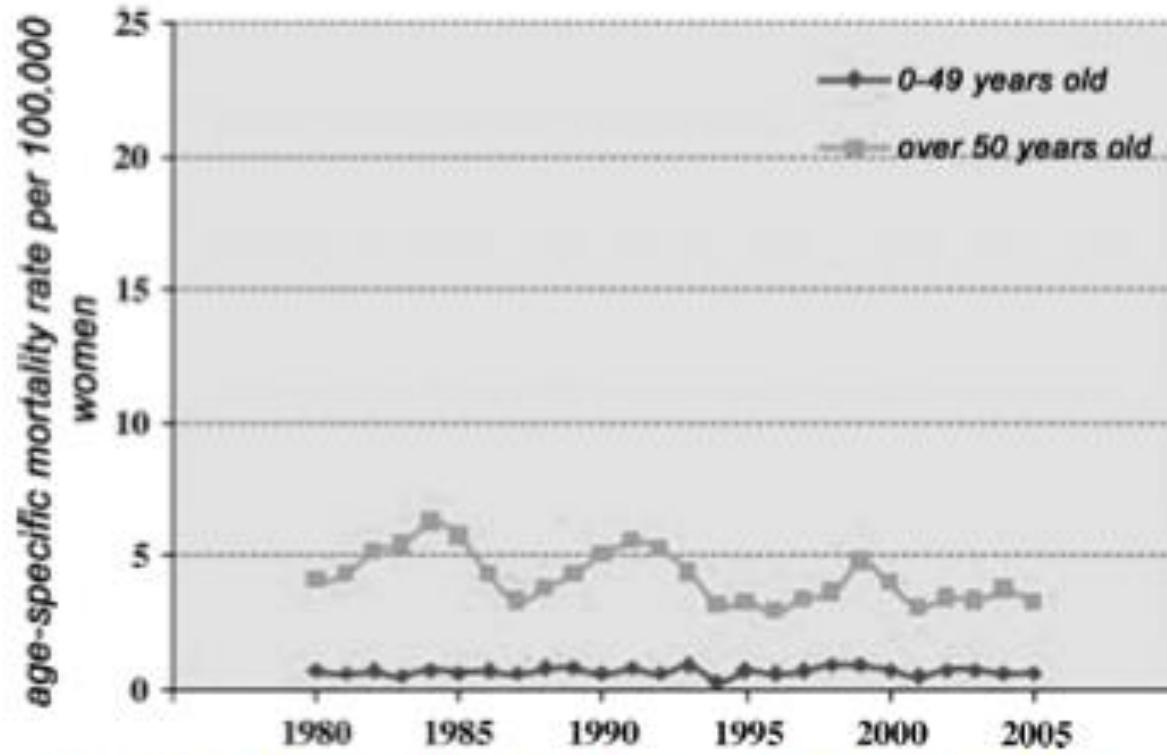

FIGURE 1. Time trends of age-specific cervical cancer mortality rates per 100,000 women, between 1980 and 2005, in Greece. The following age groups were analyzed: women 49 years or younger and women 50 years or older.

Pavlidou E, Zafrakas M, Papadakis N, Benos A, Agorastos T. Cervical, uterine corpus, and ovarian cancer mortality in Greece during 1980 to 2005: a trend analysis.
Int J Gynecol Cancer. 2010 May;20(4):482-7.

Cervical cancer screening program in Greece

- Non-population based program (no invitations to participate)
 - It defines screening modality (pap test)
-
- New guidelines anticipated to replace pap test with co-testing

[Int J Cancer](#). 2018 Jan 1;142(1):44-56. doi: 10.1002/ijc.31043. Epub 2017 Oct 10.

Status of implementation and organization of cancer screening in The European Union Member States-Summary results from the second European screening report.

Basu P¹, Ponti A², Anttila A³, Ronco G², Senore C², Vale DB⁴, Segnan N², Tomatis M², Soerjomataram I⁵, Primic Žakelj M⁶, Dillner J⁷, Elfström KM⁸, Lönnberg S⁹, Sankaranarayanan R¹.

Table 3.2.1. Cervical cancer screening programmes in the EU member states:
general information, information on programme organization and mode of invitation to the participants for screening and further assessments

Member states	General information				Programme organization						Invitations for screening and further assessments				
	Year of programme initiation	Target age (years)	Screening interval (years)	Is there a population based programme?	Is there a national screening policy?	Is the policy documented as a law or an official recommendation?	Is there a team resp. for implementing the policy?	Is the programme publicly funded?	Is health insurance a source of funding?	Are the screening tests provided free of charge?	Are the diagnostic tests provided free of charge?	Does the programme issue individual invitations through the screening registries?	Are the invitations sent as letters?	Does the invitation include a fixed appointment date?	Does the programme actively invite the screen positives for further assessment?

Cancer Screening in the European Union (2017)

Report on the implementation of the Council
Recommendation on cancer screening

**Table 3.2.2. Cervical cancer screening programmes in the EU member states:
information on programme monitoring, quality assurance and requirements for consent**

Member states	Programme monitoring and quality assurance							Consent for screening	
	Is there a team responsible for quality assurance?	Are there screening registries?	Are screening data collected as individual data?	Are screening data linked with cancer registries?	Are programme performance reports published?	Is there an audit of the cancer cases?	Is there quality control of data collection?	Does the programme require signed informed consent?	Is written information on benefits and harms of screening provided?

Cancer Screening in the European Union (2017)

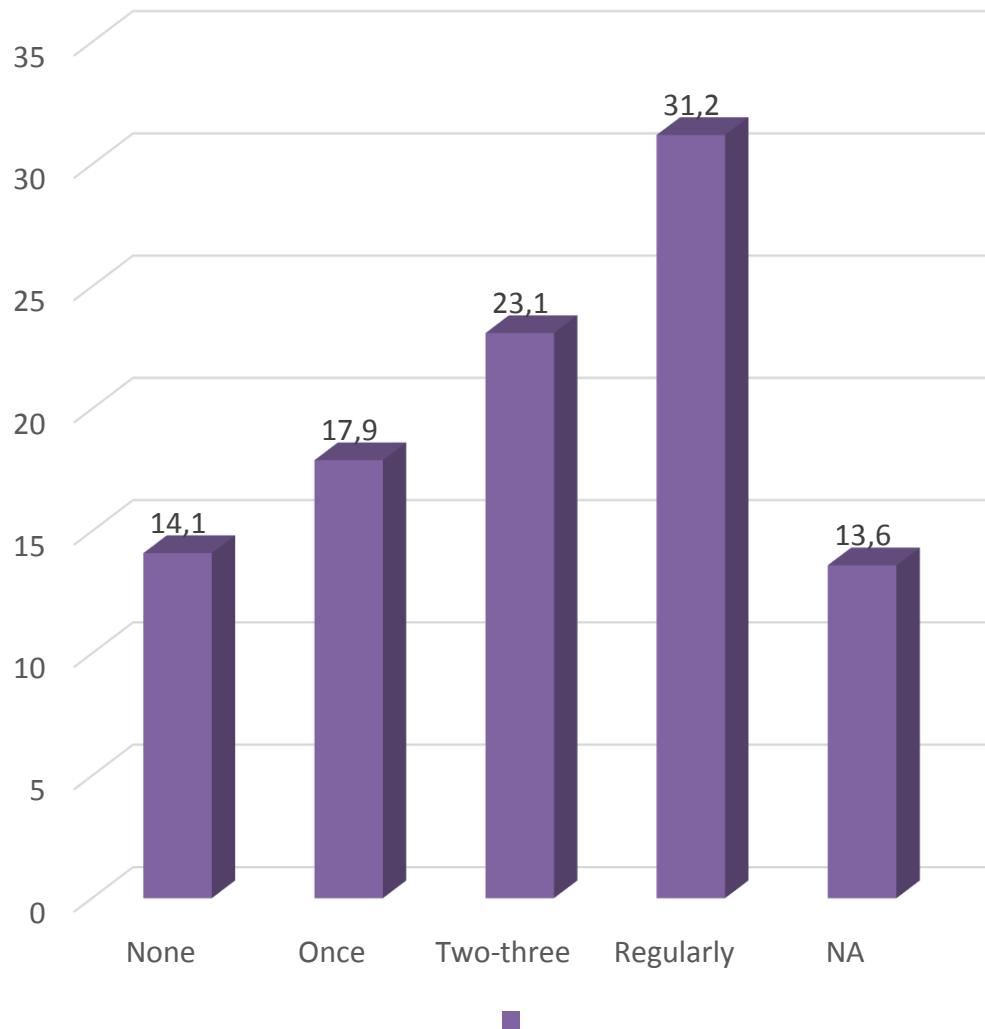

Report on the implementation of the Council
Recommendation on cancer screening

LYSISTRATA project

- 2005-2011
- 5.379 women who filled out anonymously a questionnaire participated
- 5.107 women underwent cervical HPV DNA testing and cytology

LYSISTRATA project

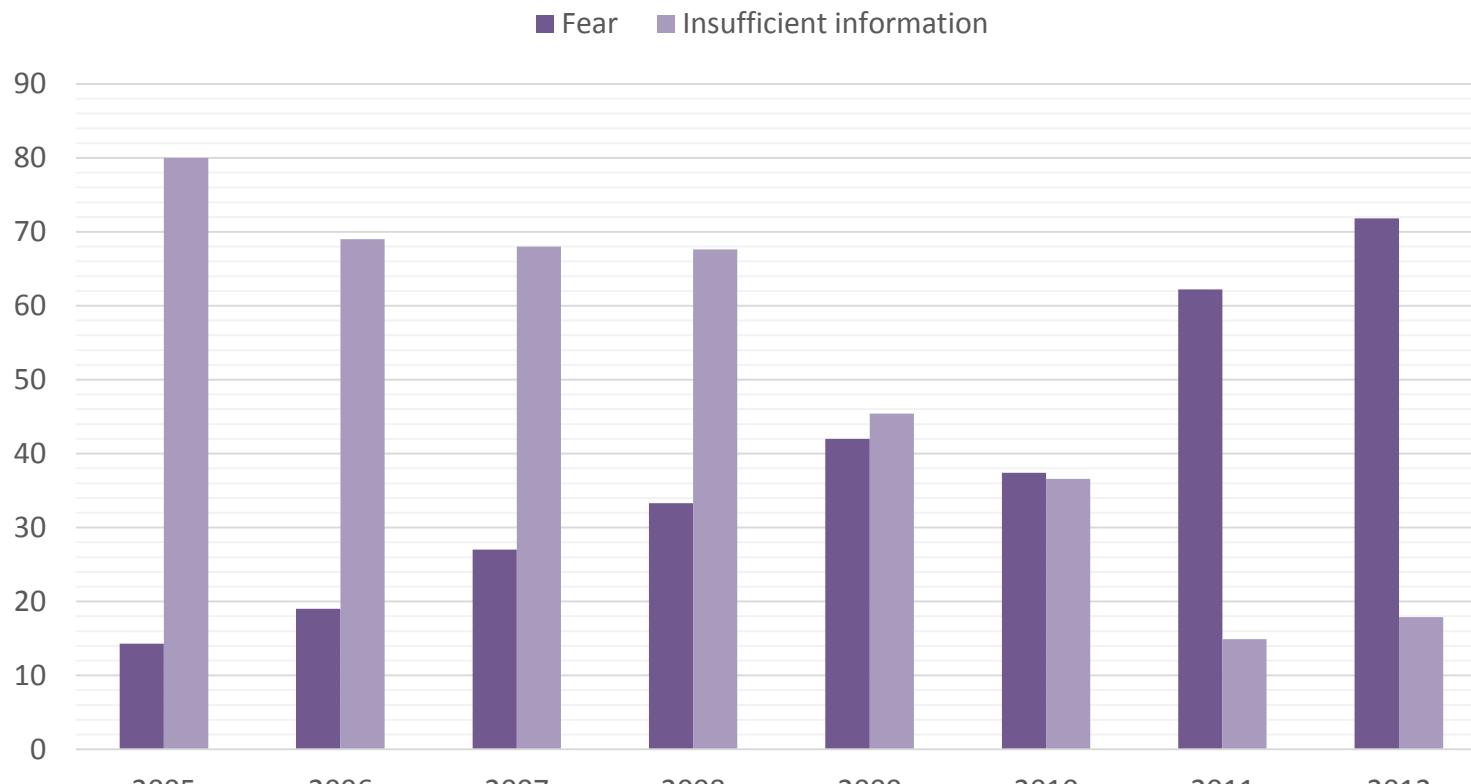

- How often do you have a pap test?

[Eur J Cancer Prev.](#) 2014 Sep;23(5):425-31. doi: 10.1097/CEJ.0000000000000060.

Epidemiology of HPV infection and current status of cervical cancer prevention in Greece: final results of the LYSISTRATA cross-sectional study.

Cervical cancer prevention in Greece

1

Opportunistic cervical cancer screening

2

Misinformation on HPV vaccination

Hellenic HPV Society

Hellenic HPV Society

A non profit scientific organization aiming to:

- promote research on HPV
- to inform the public and health professionals in Greece about new developments regarding HPV associated diseases and vaccination.

Cervical cancer prevention course

e-oncologia.org

The screenshot shows the homepage of e-oncologia.org. At the top, there's a navigation bar with links for "Home", "Who we are", "Educative offer", "Projects", and "Contact". Below the navigation bar is a main content area for the "Cervical Cancer Prevention" course. The course title is prominently displayed in orange. Below the title, there are icons for start date (21/07/2017), enrollment status (Open), and tuition cost (No Cost). A horizontal toolbar below these icons includes icons for eye, search, user profile, settings, calendar, document, edit, and a house. A sidebar on the left contains the text: "prevention. The introduction of a new vaccine targeting women worldwide requires that literally tens of thousands of health professionals and decision makers understand its value and mode of use. In turn, they should be able to explain it properly to millions of families living in environments with diverse communities in cultures, beliefs, and languages." At the bottom of the sidebar, there are instructions: "Please follow next steps for enrollment: 1. Click on 'Online registration'". To the right of the sidebar is a large, stylized blue and white graphic of a cell or virus.

2

Course virtualization and final testing

3

Virtual classroom configuration: Design - Evaluation & certificates - Satisfaction survey

4

- Academic management
- Tutors training
- Students & teachers technical support

5

First edition delivery

6

Platform maintenance

TO BE DONE

Cervical cancer prevention course

Greek edition – Greek team

- 7 Final translation - Contents & additional materials
- 8 Final testing
- 9 Local Faculty selection.
- 10 Local accreditation from universities and scientific societies.
- 11 Additional material: epidemiology and local prevention programs.
- 12 Dissemination
- 13 Funding

Cervical cancer prevention course

Greek edition – Greek team

7

Final translation - Contents & additional materials

8

Final testing

After the upload of the translated material in the online platform:

- Check the whole course to finalize the translation of the main document and of the additional materials
- Check the online functionality of the course

TO BE DONE

Cervical cancer prevention course

Greek edition – Greek team

9

Local Faculty selection.

There has to be a local Faculty in charge of the Greek edition of the Course, collaborating with ICO.

Hellenic HPV Society

A non profit scientific organization aiming to:

- promote research on HPV
- to inform the public and health professionals in Greece about new developments regarding HPV associated diseases and vaccination.

- Dr. Kimon Chatzistamatiou - course updates, fora, and tutorship
- Prof Theodoros Agorastos - scientific consultation (gynecological oncology)
- Prof Theodoros C Constantinidis - scientific consultation (epidemiology)

DONE

Cervical cancer prevention course

Greek edition – Greek team

10

Local accreditation from universities and scientific societies.

Aristotle University of Thessaloniki

Medical School

1st Department of Obstetrics and Gynecology

4th Department of Obstetrics and Gynecology

Hellenic Society of Obstetrics and Gynecology

Additional material: epidemiology and local prevention programs.

Research conducted by the Hellenic HPV Society

LYSISTRATA study ^{1,2,3}

HPV epidemiology and cervical cancer prevention in Greece

HERMES study ^{4,5,6}

Primary HPV screening (COBAS HPV test)

PIPAVIR study ^{7,8,9,10}

Primary HPV screening and triage of HPV+ with E7 detection

GRECOSELF study ¹¹

HPV primary screening with self sampling (COBAS HPV test)

TO BE DONE

Cervical cancer prevention course

Greek edition – Greek team

12

Dissemination

Meeting with representatives from all the Greek Scientific Societies related to cervical cancer prevention and presentation of the course

TO BE DONE

Cervical cancer prevention course

Greek edition – Greek team

13

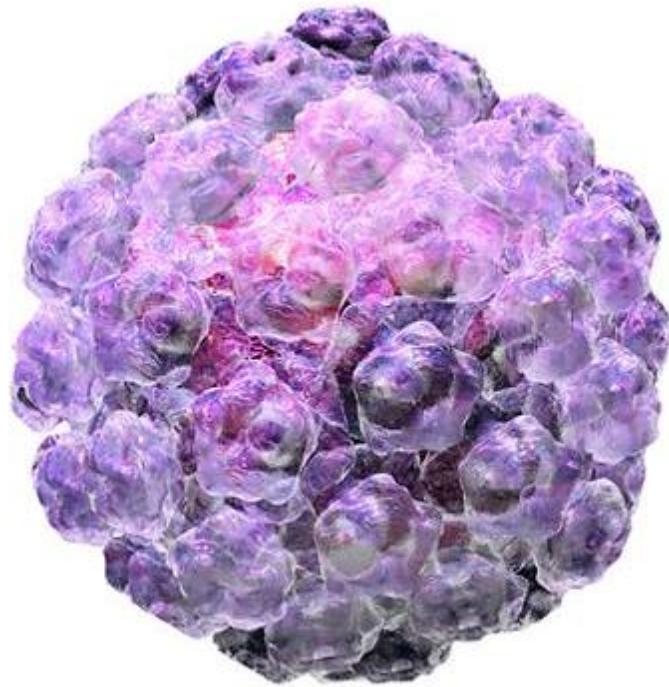

Funding

- Funding has been agreed with two major cervical cancer prevention related companies.
- The agreement will be formalized during an upcoming meeting (Athens, Greece, 17th of May 2018)

TO BE DONE
