

Reinforcing the HPV vaccination program in **Colombia.**

From a beautiful dream to a nightmare...
But...with a promising dawn

Presented by: Dr. Carlos Castro
Medical Director
Colombian League against cancer
April 2021

The beautiful dream...

Launching the HPV vaccine program in Colombia – August 2012.

The President and the Minister of Health completely behind the campaign.

VACCINATION COVERAGE:97%!

2013 Girls in 4th to 11th grade (9-17 years old)

Schedule:

0,6,60m

The NIGHTMARE..! The disaster!!

Carmen de Bolívar - May 2014

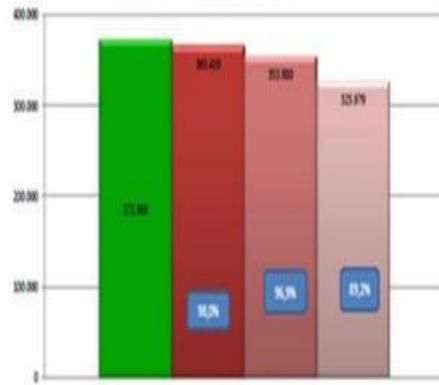

The HPV

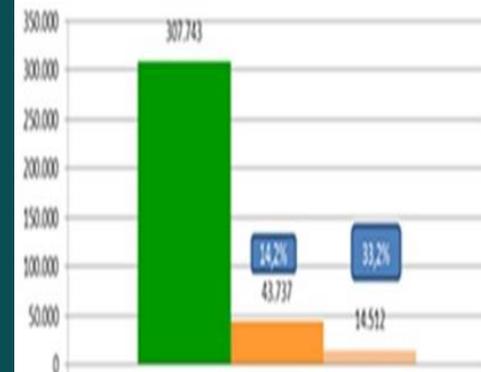

vaccine: CULPPRIT

CUMPLIMIENTO JORNADA DE VACUNACION CONTRA EL VPH
PRIMERAS - SEGUNDAS Y TERCERAS DOSIS
COLOMBIA * 2012 - 2013

CUMPLIMIENTO JORNADA DE VACUNACION CONTRA EL VPH
COLOMBIA 2016

HPV vaccine... Angel or Devil?

A significant proportion of health care providers do not have confidence in the vaccine.

In 2017, a lawsuit against the Colombian government and MSD was filed for more than US\$400 million.

The local “health team” was not prepared to deal with the crisis.

The MoH reacted slowly...AND silently.

The TV and newspapers were the main source of “**misinformation**”, and local politicians took advantage of the episode|

The NIH of Colombia carried out a very serious evaluation of what happened and ruled out any association with the HPV vaccine...but the study was never published in the mass media.

“Massive psychogenic event”

Dos Quijotes...

Nubia Muñoz- Xavier Bosch

**“HPV CANCER FREE” PROJECT:
For the health of the araucarian women
ARAUCA 2018 - 2019**

MINSALUD

Objective of the Project:

To develop a behavior change communication strategy conceived from a bio-psycho-social perspective with evidence-based support, to educate and sensitize the identified audiences regarding the importance of HPV vaccination as cervical cancer prevention.

The key audiences are the ones involved in the **decision making of vaccination**

- ✓ Fathers of girls in vaccination age
- ✓ Mothers of girls in vaccination age
- ✓ Health providers
- ✓ Teachers of adolescents in vaccination age
- ✓ Adolescents in vaccination age

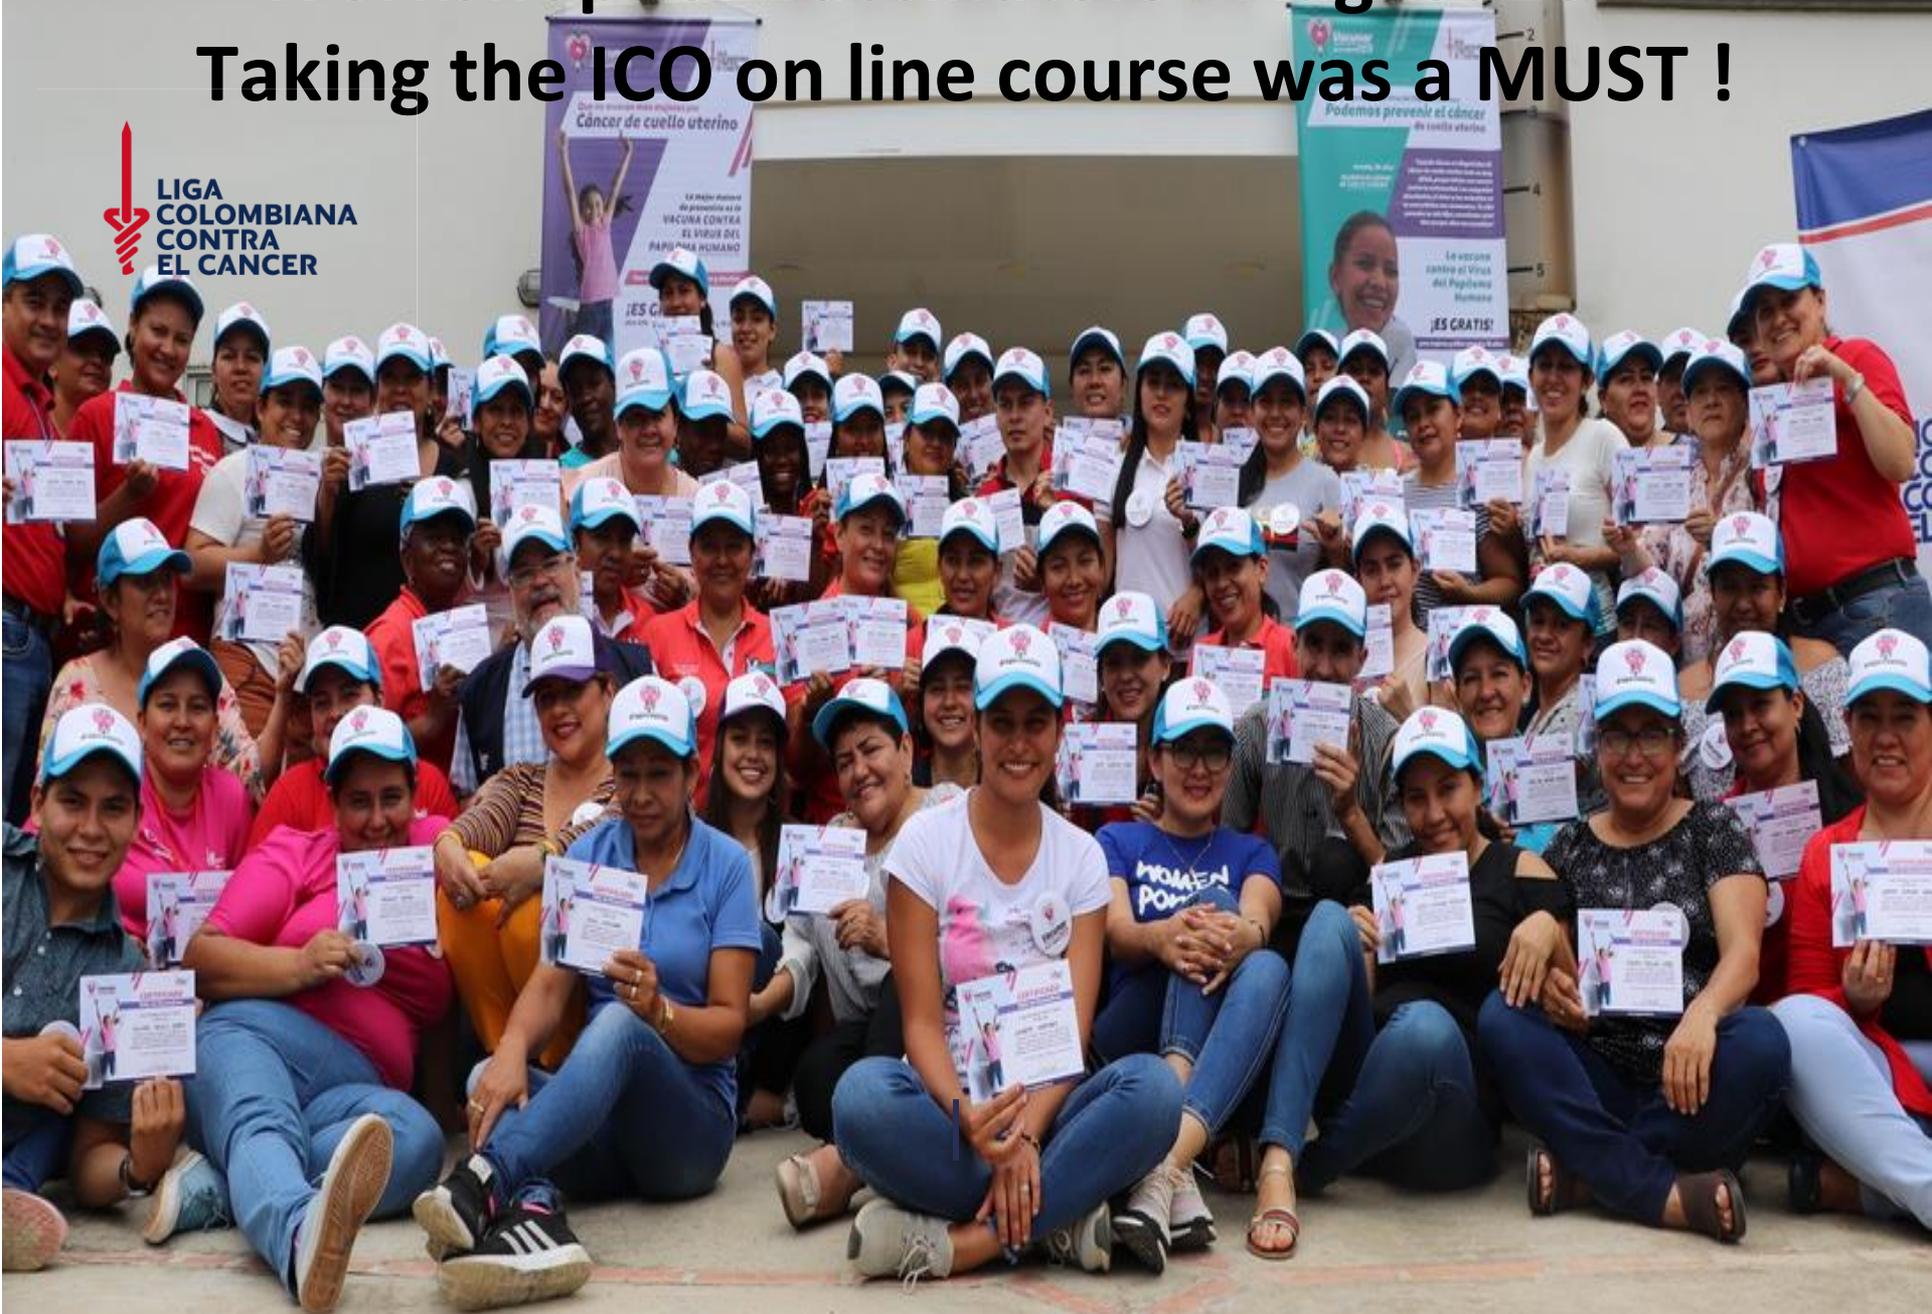

Reaching far away communities in Arauca

Workshop for vaccinators - August 2019

Taking the ICO on line course was a MUST !

¿Do you have any questions regarding the safety of the HPV vaccine?

ICO(Institute Catala de Oncologia)/
NCIC(National Cancer Institute of Colombia)

Curso online
Edición Colombia

Inscripciones
www.e-oncologia.org/cursos/seguridad-vph/

Logos: Generalitat de Catalunya Departament de Salut, ICO Institut Català d'Oncologia, e-oncologia, Instituto Nacional de Cancerología-ESE Colombia For the control of cancer.

Health providers and teachers are well known leaders
and the community listens to them!!

EDUCATION!
COMUNICATION!
COMPROMISE!

We need to recover **CONFIDENCE** in the vaccine, showing
the robust evidence on safety and efficacy

The power of persuasion...

SMILES... Our best allies, mother and child!

¡Back to “school-based” vaccination in Arauca!

HPV Prevention and Control Board

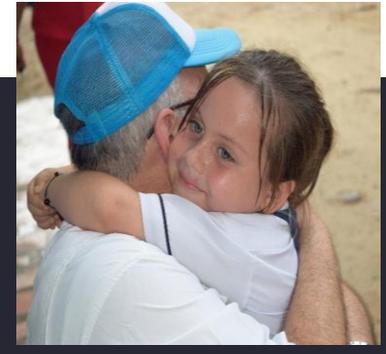

Directivos del HPV Board, de la Universidad de Antwerp, Dra. Nubia Muñoz, Dr. Xavier Bosch del ICO, Viceministro de Salud, Directora del INC., y representantes de Canadá, EEUU, México, Irlanda, Perú, Costa Rica, Brasil, Bulgaria, Bélgica, Francia, y Chile.

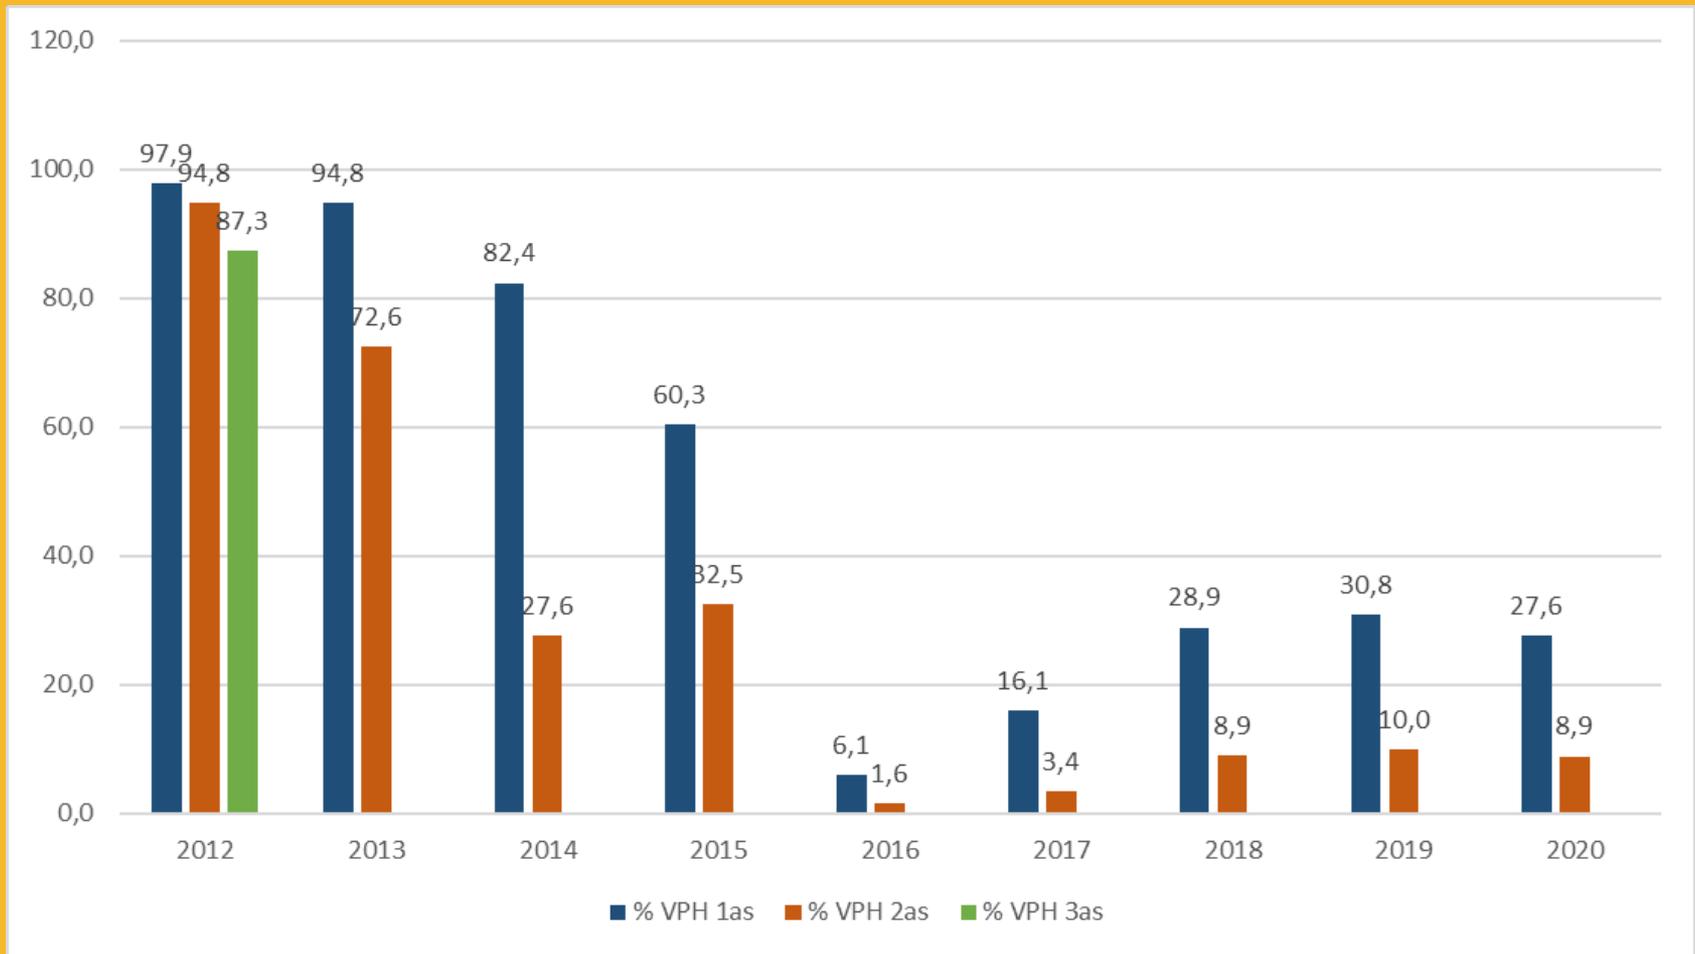

NEVER give up !!

1. Creation of “**Round table**” for the elimination of Cervical Cancer(CLAC,Academia,Scientific Societies,Parent associations).
2. Lecturing across the country to **recover the confidence** in the vaccine.
3. Reactivation of **school-based** HPV vaccination program.(Unfortunately **COVID19** showed up..Schools closed).
4. Continue close partnership with MoH, UICC, **ACS ,IDB**,and other stakeholders. “Arauca Project” (ACS,CLAC)...replicate this Project in other regions...(looking for financing).
5. Talking and listening the community...! **COMPROMISE...!**

HPV vaccination coverage in Colombia: 2012-2020.
